Forge to join in

with blacksmith - Werner Knoof

Young and old alike, come on in and have a go at “metal forging""!
The forge will be burning for you on Saturdays and Sundays during Advent!

The workshop doors are open from 2.00 pm until around 7.00 pm!
Make little things yourself – often for a laugh – with heart and hand!
From all-purpose cutlery to chess pieces – yes, even hammers make an appearance...

Dear friends, please bear in mind that blacksmithing isn’t 3D printing!
Patience and calm are essential when working the iron in the festive spirit!

Even if it can sometimes take a while, yes, everyone will have their turn!
Because for those who find the wait too long, there are numbered waiting tickets!
