

Christmas mail

Make the wishes of your child(ren) shine.

What's on your wish list this year?

Anyone who'd like to write to Father Christmas again this year can simply pop their letter into the big yellow postbox on the village green in Altkötzschenbroda.

You've got until **13 December 2026** to write your wish list, draw pictures and, of course, make it nice and colourful. After that, the post will be on its way to the North Pole, straight to Father Christmas and his hard-working elves.

They're already looking forward to receiving lots of Christmas wishes, big and small, and will make sure that no letter goes unread.

Important: don't forget to include your name and address!

Because Father Christmas himself will write back."
