Christmas tour on the back of a pony

Dressed in cute reindeer costumes, they particularly delight the little visitors.

Ponies stand in front of the small stable at the entrance to the Christmas market, waiting to take the children for a leisurely ride around the Christmas market.

So why hesitate for long - hop in the saddle!

On the back of the lovely animals, the little ones can watch the colourful hustle and bustle from above and give their little feet a rest from all the strolling.
