

Amptray

- Deutschland

Driving rhythms, soulful ballads and distorted guitar solos. Amptray serve up amplified sounds, constantly shifting between dark mysticism and invigorating riffs.

Elements of hard rock, psychedelia and grunge blend with melodic hooks and spoken vocals to create a multi-layered soundscape. A place full of atmosphere and raw, high-energy live sound. A place of understanding and letting go.

With their debut album in autumn 2024, they laid their first musical foundation, from which they are venturing into new realms with their forthcoming EP 'Overexposed', characterised by a rougher, vintage sound. Influenced by artists such as Patti Smith, Led Zeppelin and Hole, the new live set brings a hypnotic, psychedelic energy.
