

Kostis & Leticia

- Deutschland

Two people, one evening, an unlikely encounter.

“**Kostis & Leticia**” tells the story of two completely different souls who meet by chance – or was it fate? Kostis, an eccentric loner with a penchant for ancient myths, and Leticia, a fun-loving scatterbrain searching for the meaning of it all. What begins as a quirky misunderstanding develops into a poetic and comical dance between attraction and aversion.

With plenty of verbal wit, quiet melancholy and typical Irrwisch chaos, the play unfolds a touching story about what connects us – even when we seem to contradict each other so much. An evening of theatre full of heart, humour and the magic of the unexpected.
