Funk, Sitar Beat - Deutschland

The eight-piece band “Kellerkumpanen”, named after their rehearsal room in a soundproofed cellar in Radebeul, will surprise you with a chaotic mix of jazz, funk and Latin music.

Electric bass, electric guitar, drums, congas, electric piano, two trumpets, tenor and alto saxophones, as well as vocals, come together in Kellerkumpanen to create a very special blend that ensures no knee stays still, no dancing leg stays still and no hip remains still.

The young musicians have mastered the art of improvisation and, through the liveliness of their music, manage to completely captivate their audience.
