

The Keeds

- Deutschland

Funk meets a laid-back groove vibe. The result is called "The Keeds" and basically means "dancing until the doctor comes%\$", because the eight members of this Leipzig-based funk band really know their stuff.

Tight grooves combined with driving basslines won't let a single foot stand still. The riffs are sometimes hard-hitting, sometimes cosy, and the whole thing is paired with a voice that's absolutely top-notch. So put on your dancing sandals and hit the dance floor.
