"When the world was still all about Schlager"

- Deutschland

Five young people meet by chance in a pub. They don't know each other, yet they have something in common: they've all just been dumped, or are otherwise searching for meaning in life – no, before long they're up to something together ...

Look forward to a musical mystery at our »Goldene Weintraube«, staged by students from the Saxony Theatre Academy in Delitzsch, and accompanied by musicians Marco Pfenning on guitar and André on drums.
